

Enterprise-Grade AI Workstation. On-Premises.

NEXTORE AI BOX

The NEXTORE AI Box is an enterprise-grade, on-premises AI workstation that maximizes AI capabilities in a secure environment. Powered by the NVIDIA GB10 Grace Blackwell Superchip, it delivers exceptional performance for executing advanced AI models on-site. Its integrated App Centre provides secure access to curated AI applications, enabling enterprises to enhance innovation, streamline operations, and transform workflows while maintaining complete data control.

Integration

Deploy a suite of enterprise apps from a unified platform.

Sovereign Control

Confine all data and computation on-site.

Predictable Cost

Achieve a fixed-cost model with unlimited on-premises AI utilization.

Empowerment

Securely power AI with your private, proprietary knowledge base.

Professional-Grade AI Architecture

Hardware Specifications

Core Processor	NVIDIA GB10 Grace Blackwell Superchip
Unified Memory	128GB LPDDR5x
AI Model Support	Compatible with models up to 200 billion parameters
Computing Power	1 Petaflop (1000 TFLOPS FP4)
Enterprise Networking	ConnectX-7 SmartNIC
Operating System	NVIDIA DGX™ OS
Application Platform	Pre-configured branch of enterprise AI applications

29/F, Tower 2, The Millennity, 98 How Ming Street,
Kwun Tong, Kowloon, Hong Kong

NEXTORE

Public AI App Gallery

Browse and adopt the latest vetted AI applications in NEXTORE AI App Centre.

Business Users Requests

Release AI applications by user and departmental roles.

NEXTORE

Internal App Gallery

Utilize frameworks in AI App Store Management Server to build proprietary AI applications.

Ready-to-Deploy AI. Ready for Everything.

All data processing and computation remain on-premise.

Document Tool

Language Translator

AI Writing Assistant

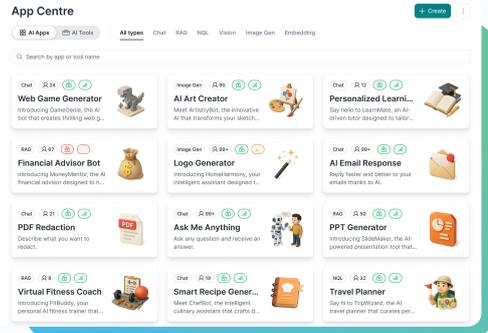

Powerpoint Generator

Graphic / Video Generator

Smart Meeting

General AI Apps

Ready-to-use applications for general tasks accessible by all users.

Additional AI Apps

Specialized applications according to user roles and requirements.

Full Oversight and Management of the

NEXTORE AI BOX ECOSYSTEM

AI Model Management

Update to the latest AI models within your appliance.

Curated App Deployment

Deploy AI applications from a secure, cloud-based app store to your offline workstation.

Granular Usage Monitoring

Monitor AI tool usage and performance with integrated dashboards and analytics.

Private Knowledge Base

Manage a secure internal knowledge repository with RAG support for context-aware AI responses.

Centralized User Management

Control access and permissions through role-based governance for efficient tool availability.
